JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

1 from cholera infantum. The weather is very warm, with rain every day. The sanitary condition of the town is good.

Gibara.—Reports show the arrival of 10 vessels, the issuance of 13 bills of health, no deaths, and good sanitary condition.

Puerto Padre.—Reports show the arrival of 4 vessels, the issuance of 5 bills of health, 2 deaths—1 from asphyxia, and 1 from pernicious fever, and good sanitary condition.

No quarantinable disease is reported at any point in the district.

Respectfully, OWEN W. STONE,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Reports from Nuevitas and Puerto Padre.

NUEVITAS, CUBA, *June 11, 1901.*

SIR: I have the honor to submit the following report for the week ended June 8, 1901:

Eight vessels arrived at this port and 11 bills of health were issued. There was 1 death from infantile tetanus. The very warm weather, with rain every day, continues. The sanitary condition of the town is good.

Gibara.—Reports show the arrival of 10 vessels, the issuance of 10 bills of health, 3 deaths—1 nephritis, 1 pulmonary tuberculosis, and 1 infantile tetanus. The sanitary condition of the town is good.

Puerto Padre.—Reports show the arrival of 4 vessels, the issuance of 8 bills of health, 3 deaths—1 from dropsy, 1 from dysentery, and 1 from paludal fever. The sanitary condition of the town is good.

No quarantinable disease is reported at any point in the district.

Respectfully, OWEN W. STONE,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON GENERAL,
U. S. Marine-Hospital Service.

ENGLAND.

Report from London—Plague diminishing in Cape Town.

LONDON, ENGLAND, *June 1, 1901.*

SIR: I have the honor to make the following report: The general health of England and the British Isles remains satisfactory. One case of typhus fever is reported at Londonderry for the week ended May 25, and in London for the same period there were 6 deaths attributed to influenza as against 19, 17, and 16 in the preceeding three weeks.

The number of cases of plague reported from Cape Town continues to diminish. The total number of cases from the beginning of the outbreak to May 25 was 666, with 308 deaths.

Reports from Hongkong show that the plague has become epidemic and for the week ended May 25 there are reported to have been 200 cases of plague, with 187 deaths.

Respectfully, A. R. THOMAS,
Passed Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.
